Deutsches Klimarechenzentrum (DKRZ)

# TQA Workflow

# Overview TQA modules

## CITATION CHECK

Verification that all citation information from the cmip6\_cite\_test schema were correctly transferred to cera2.

## METADATA CHECK

Verification that the initial metadata is correct and consistent.

## AFTER DATA FILLING CHECK

Verification that no errors were produced when filling the data and that metadata is consistent within databases and data files.

Thank you for your attention!
